Penta-Ocean Construction Co., Ltd was established in 1896 and has evolved over the last 100 years into one of Japan’s leading construction companies. Penta Ocean Singapore Office was established in 1963 and has been part of Singapore’s growth and development through the years since her independence. The company has utilized its expertise in extremely challenging natural construction environments to build some of the world’s most noteworthy structures. And, drawing on this accumulated know-how today, Penta Ocean is a leading producer of innovative construction techniques and products.

Penta Ocean Construction continues to be at the forefront of many large-scale marine, civil, building, and engineering projects in Japan, Singapore, and around the world. Penta Ocean is proud to be a partner in the growth and development of Singapore; in the past, the present, and continues to be her partner in the future.

Penta Ocean Construction is your partner for a total engineering approach and the environment.

Shanghai Tunnel Engineering Co., Ltd (STEC) is proud to be one of the finalists for the Land Transport Safety Excellence Awards 2013. STEC is committed to fostering a cohesive partnership with LTA and Business Partners towards Workplace Safety & Health Excellence.
